## Manager Series

The Manager Series solutions offer simple, out-of-the-box enhancements to common business processes in Microsoft Dynamics GP.

### eMailer Manager

- Enhance Dynamics GP with e-mailing/e-faxing of sales and purchasing documents
- Mass e-mail or e-fax to one or multiple recipients
- Send either unposted or posted documents

### Sales Document Consolidation

- Merge multiple invoices, orders or any other sales documents into one
- Merge and recover previously merged documents
- Merge child documents into a single parent document

### Vendor Contract Pricing & Rebates

- Streamline contract and rebate management for recognition of discounts and rebates
- Automate the selection of optimal vendor pricing based on date-driven contracts

### National Accounts for Payables

- Manage parent and child vendor relationships in the Dynamics GP payables module
- Pay parent/child invoices under the parent
- Create single check payment/remittance for related vendors

### Serial & Lot Number Processing

- Copy and paste serial lot numbers from any comma-delimited file into the SOP, POP, Inventory and RMA modules
- Overwrite previously posted serial numbers

### EFT Manager

- Enable EFT banking with Canadian and UK financial institutions
- CPA 005, HSBC Net and BACS formats supported

### Sales Document Splitting

- Split sales documents by customer driven criteria

### SOP Auto-Fulfillment

- Efficiently fulfill partial sales orders in priority sequences
