Financial Close Management

NetSuite ERP helps organizations speed up the close process with capabilities to manage period-end activities and to detect and respond to problems before they escalate or occur. NetSuite optimizes the financial close by delivering:

- Period locking to prevent incorrect postings to future periods.
- Period-close checklist of tasks to be completed sequentially.
- Financial adjustments for intercompany transactions, foreign currency revaluation and inventory.

Effective Compliance and Controls

NetSuite ERP ensures compliance with various accounting standards and practices and government regulations efficiently. NetSuite enables accounting compliance by delivering:

- A powerful rule-driven engine to produce financial reporting in accordance with multiple accounting standards (e.g. GAAP, IFRS) using multi-book accounting capabilities.
- Pre-built tax filing and reporting tools that are country-specific.
- Customizable roles with permissions that support segregation of duties.
- Audit trail visibility into detailed transaction history, reports and saved searches.

Real-Time Reporting and Analytics Anywhere

Any business user can create meaningful reports with easy-to-use tools, monitor the latest results as part of everyday activities, identify root causes of problems and take corrective action. NetSuite delivers real-time information and insights with:

- Personalized dashboards to monitor the KPIs important to any role, from executives to individual contributors.
- Pre-built accounting reports and an easy-to-use report builder for custom ad-hoc reports.
- Consolidated financial reporting for multiple subsidiaries and currencies.
- Access to information on-the-go from any connected device.
